

Free Pets for Vets

Helping PAWS honors America's veterans through our Free Pets for Vets promotions. Periodically, when our inventory of pets and our financial health permit, HPPR will announce an upcoming "Free Pets for Vets" period, during which time we will waive our pet adoption fee to any current or former military veteran who wants to adopt an eligible* pet. If, during the period of this promotion, a veteran wants to adopt a second pet, we will waive 50% of the adoption fee for that second pet. During the promotion period, a veteran who wishes to adopt will need to provide the following forms of military identification: **DD-214 or Veteran's ID**. While HPPR would like to offer this program as a continuous policy, we rely on adoption fees to finance our efforts to help animals in need throughout our community and can only offer it when our financial strength permits. **Donations to help sustain this program are always welcome.**

*Most of our rescued pets will be available for adoption through this program, although some exclusions may apply.
